

1. Enno Sturenburg and Dietrich Mack
Extended-spectrum [beta]-lactamases: implications for the clinical microbiology laboratory, therapy, and infection control
2. H. Donabedian
Quorum Sensing and its Relevance to Infectious Diseases
3. R. W. Watkin, S. Lang, P. A. Lambert, W. A. Littler and T. S. J. Elliott
The microbial diagnosis of infective endocarditis
4. C. C. Tam, S. J. O'Brien, G. K. Adak, S. M. Meakins and J. A. Frost
Campylobacter coli--an important foodborne pathogen
5. V. Ravindran, J. John, G. C. Kaye and R. E. Meigh
Successful use of oral linezolid as a single active agent in endocarditis unresponsive to conventional antibiotic therapy
6. Daliana Peres-Bota, Hector Rodriguez, George Dimopoulos et al.
Are infections due to resistant pathogens associated with a worse outcome in critically ill patients?
7. T. Solomon and M. Mallewa
Dengue and Other Emerging Flaviviruses
8. Whitney Greene and Guangming Zhong
Inhibition of host cell cytokinesis by Chlamydia trachomatis infection
9. Lim WS, Anderson SR, Read RC on behalf of the SARS guidelines committees of the British Thoracic Society, the British Infection Society and the Health Protection Agency.
Hospital Management of adults with Severe Acute Respiratory Syndrome (SARS)
10. Heyderman RS et al on behalf of the British Infection Society.
Early management of suspected bacterial meningitis and meningococcal septicaemia in adults

ScienceDirect provides access to over one quarter of the world's peer-reviewed literature under one simple URL. There are search facilities to over 60 million abstracts and links to articles from more than 170 publishers via CrossRef.

ScienceDirect offers an unparalleled overview of the scientific literature available worldwide.

Features of ScienceDirect:

- Articles are available online before appearing in print
- Online access to multimedia features not available in print journals, such as: video files, audio files, Excel spreadsheets and Word files.
- Articles in Press - rapid access to recently accepted articles

ScienceDirect guarantees you a truly global audience for your paper.
